

RAMANUJAM P

Computer Science Engineering Student

India | Phone: +91 9940704485 | Email: pramanujam68@gmail.com | GitHub: <https://github.com/Ramanujam-p> | Portfolio: <https://rama-p-portfolio.netlify.app/> | LeetCode: https://leetcode.com/u/RAMANUJAM_PALVANNAN/

TECHNICAL SKILLS

- Programming Languages: C, C++, Java, JavaScript, TypeScript
- Frontend Technologies: React.js, HTML5, CSS3, Tailwind CSS
- Backend Technologies: Node.js, Firebase (Authentication, Firestore)
- Databases: Cloud Firestore (NoSQL)
- Core Computer Science: Data Structures & Algorithms, OOP, Operating Systems

PROJECTS

1. Skill Share Platform | React, TypeScript, Firebase, Tailwind CSS

- Designed and developed a scalable full-stack skill-sharing web application connecting learners and instructors, using React, TypeScript, and Firebase.
- Implemented Firebase Authentication and Firestore with optimized state management, improving application performance and page load efficiency by approximately **15%**.
Live Url: <https://ramanujam-skill-share-platform.netlify.app/>

2. Student Management System | HTML , CSS , Java Script

- Developed a student management system using HTML, CSS, and JavaScript to manage student records and basic administrative workflows.
- Implemented client-side CRUD operations, form validation, and dynamic UI updates to improve usability and responsiveness.
- **Live Url:** <https://rama-studentms.netlify.app/>

PROBLEM SOLVING & COMPETITIVE PROGRAMMING

- Solved 400+ Data Structures and Algorithms problems on LeetCode and similar competitive programming platforms.
- Demonstrated strong proficiency in arrays, strings, recursion, linked lists, stacks, queues, trees, hashing, and basic dynamic programming.

EDUCATION

Bachelor of Engineering – Computer Science Engineering

MIT, Anna University

2024 – 2028 (Expected)
